and the confidence and improvement displayed by the 1959 squad, which has already previously defeated the two teams that divided No. 1 ranking during most of the season, Collinsville and Pinckneyville.

Galesburg Among Favorites
Ottawa, Marshall high of Chicago and Galesburg are regarded as among the strongest of the remaining contenders. Others in the running besides Granite City, West Frankfort and Pekin are Decatur, Schlarman of Danville, Bridgeport, Springfield, Kankakee, Monmouth, East Providence, DeKalb, Elgin and Greenville.

With a won-lost record better than five of the 15 competitors and the knowledge that it has jelled into one of the most powerful "short" high school teams ever assembled, Granite City has the ability, momentum and poise to go all the way to the title game, Warrior rosters believe.

Accurate scouting of prospective opponents, astute advice by Coach Andy Sullivan and attention to the almost lost art of defense are credited with adding to the Red and Black's chances. Combined with fleetness of foot, bull-eye shooting spirit and daring, these factors have contributed to hard-fought tournament triumphs that cannot be classed as upsets, observers say.

Carrying the Warrior hopes into the final week of state play will be the same ten athletes who have won admission to the regional and sectional competition — Rich Williams, Bob Price, Frank Knight, Carl Votham, Jim Simpson, Bill McDowell, Harry Cook, Max Prusak, Harry Smith and Larry Farnham.

Eight Games Tomorrow
While action is underway tomorrow at East St. Louis, Ottumwa will be meeting Pekin at Peoria, Springfield and Monmouth will play at Springfield, East Providence and Kankakee at Aurora, Schlarman and Decatur at Decatur, Elgin and Chicago Marshall at Evanston, Greenville and Bridgeport at Olney and Galesburg and DeKalb at Rock Island.

Springfield and Galesburg were the only teams from this group to reach Champaign last March. Springfield defeated West Aurora for the title, and Galesburg gained third place over Waukegan, the quarterfinal winner over Madison.

Madison's 1958-59 team also did not catch fire until late in the season, beginning to move at just the time to carry it through rugged elimination play, and into the state meet. Price was a member of last year's champions.

State Pairings
The schedule for Huff gymnasium at Champaign Friday pairs the Elgin-Chicago winner with Springfield or Monmouth at 1:15 p.m., the East Providence winner with Schlarman or Decatur at 3 p.m., Pekin or Ottawa with Greenville or Bridgeport at 7:30 p.m. and Granite City or West Frankfort with Galesburg or DeKalb at 9 p.m.

Friday afternoon's survivors will play at 1:15 p.m. Saturday, with Friday night's winners meeting at 2:45 p.m. Saturday. Third-place will be decided in a 7:30 p.m. game, with the state championship being decided in a game starting at 9 p.m. Saturday.

22 Attend 1st PTA Training Course

The first of a series of four PTA Leadership training courses was held Saturday at Granite City High school with 22 members of local PTA units enrolled. The course, being conducted each Saturday, will continue through April 2 and is part of a statewide program.

Saturday's course was conducted by M. A. Witternigel, adult education director for the Granite City school district, who outlined the use of panel discussions and buzz sessions during PTA unit meetings.

Dr. Harold M. Kaiser, superintendent of schools, who welcomed the group, said, "I am pleased with the response and interest shown by the PTAs in this course. I am sure this program will benefit both our PTAs and our schools."

"I would like to commend the Granite City PTA Council, Mr. Waldo Sigmon and Mr. Harry Wood for their foresight in arranging this course."

The program is being sponsored by the school district, the Granite City Area PTA Council and Illinois Congress of PTAs. The session next Saturday will feature child growth and guidance.

Completion of the year-round lodge will take most of the money. The lodge, with payments, pump house, grounds and utilities will cost \$21,000 to finish, and the remainder of the fund would be used for kitchen equipment and appliances costing \$5,000; furnishings for the lodge and infirmary, \$3,500; and contingencies, \$500. The council already has spent about \$25,000 on the camp, including \$16,400 for the lodge.

The lodge building, costing a total of \$25,000, will contain facilities for 60 girls and is designed for use throughout the year. The money spent to date was raised over a period of years from cookie sales and other proceeds.

In other business at the U.F. meeting, Mark Robbins was named a director to replace Forrest Harding, who recently moved to California; and the board voted for the \$7,000 maintenance fund for the YMCA to be paid to the agency in a lump sum. The auditing firm of C. J. Schlosser reported the U.F. books for 1959 were in order. The audit was carried out by the firm without charge.

Tabled by the board was a \$400 request to the local Mental Health Clinic. Microfilm records of this city served as a judge at the Saturday event.

Due Here Next Season Myra Kinch Community Concert Attraction

Miss Myra Kinch and modern dance group will be one of the Tri-City Community Concert Association's 1960-61 attractions. Association President Robert Dan Todorski announced today.

The announcement of Miss Kinch's appearance marks the second such release as the association prepares for the next season. Under the Community Concert plan, one ticket is purchased at once for all concerts with no single admissions allowed.

Next year's concert ticket sales will begin in a week-long drive starting March 21. The other attractions of the series depend upon the amount of money raised in the campaign. In the seven previous seasons, the total has topped 600 members every year.

Brian Sullivan, noted operatic star, has been named as the other headlining attraction for the next season.

Miss Kinch is a satirist who likes to poke fun at classical operas such as "Aida," "Nuts," "Cracker Suite" and others, but her repertoire also includes straight modern dance numbers.

She is a native of California and received her training on the west coast. After graduating from the University of California, she was engaged as instructor in modern dance for three years as soloist for Camera Three on CBS and as soloist and group choreographer for NBC's Frigates of Faith.

Chief Outlines Three Ways To Aid Police
People of Granite City can help the police force in three ways, Chief Raymond Willard told 24 members of the Cloverview Civic Improvement Association at a meeting in Mayville road school Thursday night.

"People can help by reporting suspicious persons around the neighborhood, restricting children not to play in the streets and setting good examples in driving automobiles," Willard said.

The chief also pointed out that, although the police force is 14 men short of a "perfect number," crime actually was reduced in 1959. "If we had more men they would probably be stationed in the traffic division," he said. "Traffic is one of our biggest problems."

Willard also explained the detailed organization of the force and how the police patrol the streets.

The civic association also discussed traffic, sidewalks and playgrounds at the meeting. No action was taken. The next meeting is scheduled for April 14.

Pvt. Paul R. Jones of Granite City, a fire guard, sounded the alarm but a barracks and dining hall were two-thirds destroyed early Sunday at the Army Reserve Training Center in St. Charles, Mo. He and Pfc. Charles Williams escaped from the building, used primarily on weekends for reserve training.

Tests Of Intoxication Can Help Curb Drunken Driving; State Law Also Needed

Despite the lack of a law in Illinois making chemical testing of breath mandatory for suspected drunk drivers, steady progress is being made toward curbing of driving while intoxicated. Many cities have begun making such tests available, and the Granite City aldermen's police committee has studied operation of the machine and is preparing to submit a recommendation to the full council.

With the state specifying up to .05 percent alcohol in the blood as a safe margin, tests conducted in Illinois cities have been proving about half of the suspects innocent. Of those found to exceed the safe percentage, use of the test findings as evidence has enabled nearly all to be convicted.

New York, Kansas and Idaho require motorists to submit to the simple test when requested by police, the penalty for refusal being automatic license revocation. The ruling, supported by many court decisions, is that an individual's right to avoid self-incrimination applies only to verbal statements; the test reports are regarded in the same light as fingerprints and other physical evidence.

In helping rid streets and highways of habitually drunken motorists and in serving as a deterrent to other drivers, the tests can improve traffic safety and reduce the casualty toll. It is estimated that drinking is completely or partly responsible for over half of the nearly 40,000 highway deaths occurring in the United States each year.

Even before action by the state legislature, a local intoxication testing device could do much good, since most drivers have been found to agree to testing, and such voluntary tests are admissible in court. An even more concentrated attack on drunken driving could be made after the tests are made mandatory.

Aldermen's Strong Stand For Zoning Should Be Followed By County Action

Zoning has been filling the news of late, and rightly so, for it is important to the future of Quad-City and Madison county residents.

In Granite City, the city council last week supported a decision of the Planning Commission by voting down a "spot zoning" proposal affecting the Glenview area. The rejection was wise, because approval could have opened the gates to widespread zoning changes, including existing zoning protection meaningless.

The threat to property values, orderly growth and

attraction of industry is even more real in the unincorporated areas of the county, where there is no zoning law. Fortunately, while county zoning is many years overdue, it is not yet too late to salvage the currently bright prospects for industrial and residential growth.

County zoning can assure home owners that a factory will not be built next door to them, reducing the value of their property. It also can preserve sections for industries, such as the land adjacent to the canal and harbor. Each new industry adds to the prosperity here and helps local residents meet the municipal and county tax burden. The alternative to zoning is to allow building of one or two houses or small businesses to destroy otherwise ideal industrial sites.

Approval by the county board Wednesday, March 16, of a \$10,000 zoning survey appropriation could aid greatly in expediting the establishment of zoning regulations. Granite City aldermen have taken a strong stand to maintain zoning within the city; members of the county board now have a chance to back up their planning-zoning committee's efforts to resist zoning for the unincorporated areas.

Few people have the courage to resist the crowd, even when they know the crowd is off base.

Association Providing Entertaining Series Of Concerts Here At Low Cost

Music lovers and concert enthusiasts again this year are being offered an outstanding bargain—membership in the Tri-City Community Concert Association. For a nominal membership fee, members may attend the four programs scheduled in the near future, as well as other concerts in nearby cities, all without any additional charge.

In planning its eighth season, the local association has secured Brian Sullivan, a leading tenor of the Metropolitan, Chicago and San Francisco opera companies, and a dance revue, "The Light Fantastic," presented by the dance company of Myra Kinch. At least two more concerts will be held and are to be announced after the close of the yearly membership drive March 21-26.

While not all of the concert artists are as widely known as Sullivan, Quotations, attending the concerts have found each program delightful and highly pleasing to even those with no direct interest in music.

Since the scheduling of concerts is dependent to a great extent on the membership drive, it is hoped that a large number of Quad-Citizens in joining the association. The program is worthy of support, for it affords concerts of substantial cultural, artistic and entertainment value at low cost.

Deserved Tribute To Scout Unit Leaders At Appreciation Dinner

The Cahokia Mound Council of Boy Scouts of America paid deserved tribute to unit leaders at its annual appreciation dinner Saturday. The occasion marked the one time of the year when the entire council recognizes the important role played by the men who personally provide leadership for troop, pack and post activities.

There are many positions of responsibility and service in the scout structure, but few are more vital than directly conducting the operation of a scout unit. Leadership and craft skills are constantly tested in instructing scouts, and the example set by the adult scout leader can be a real inspiration to boys if he is able and devoted to his task.

While other awards were presented, the recognition given to unit leaders highlighted the annual banquet. This was fitting, because the leaders form the strong and dependable backbone of the Boy Scout organization.

500 Bonus Claims Processed Daily

Over 26,000 of the 78,500 applications for Illinois Korean war bonuses have been processed or are currently in processing and the work is proceeding at a rate of 500 a day. Joseph Wetton of the local Illinois Veterans' Commission office has been notified. Wetton said 430 applications have been received at his office at the city hall in Granite City and have been forwarded to the central office in Springfield.

Records at Springfield show 76,500 claims by veterans who are living and 2,000 claims by beneficiaries of Korean war dead. The bonus amounts to \$100 for veterans and \$1000 for beneficiaries.

Claims acknowledged and assigned numbers total 61,000 from 1950 and 2000 from beneficiaries, while those being processed number 25,000 and 500.

"Unpaid claims assigned 'K' numbers below 25,000 are irregularly being reported."

"All persons having irregular claims numbered below 14,500 have been notified to come in to provide additional evidence."

Com Loan Deadline Set For March 21

Farmers are being reminded that March 21 is the final date that the Madison County Agricultural Stabilization committee will accept applications for 1959 farm-stored corn loans.

Edwin C. Redmiller, chairman of the local committee said that bin inspections and grade determinations must be completed in time to complete the loan documents and make disbursement not later than March 31. That is the reason for the early closing date for the requests for inspection.

Redmiller said purchase agreements will be available thru the last day of March for those that wish price insurance and do not wish the cash before the delivery.

The support rate on 1959 corn is \$1.14 per bushel for corn grading No. 3 or better and having a moisture content not to exceed 14%.

It is anticipated that the corn under loan in Madison county will be called for delivery beginning in August.

He said he did not expect to receive many additional requests for inspection due to the high moisture content making the corn uneligible for loan.

Postal Wives Write Letters To Congress

Writing to Congress is an old American custom wives of Granite City postal clerks hope to use in getting pay raises for their husbands, according to Mrs. Daryl Few, president of the Granite City Postal Clerks Auxiliary.

Nationally, the ladies auxiliary of the Postal Clerks Union is planning a conference April 4 in Washington, D. C., to chart a course of action for persuading Congress to raise postal salaries, she said.

Due to the expense and distance involved, the local group will be unable to send representatives to the conference, and the letterwriting campaign is the local auxiliary's means of joining the fight, Mrs. Few explained.

Each member will write three letters, one to each local senator and representative, urging the congressmen to consider the pay raise. According to Mrs. Few, postal clerks not only average \$800 a year less than most factory workers, but also make less than other federal employees.

YMCA Boys' Department Gets New Meeting Room

Facilities at the local YMCA, which underwent a complete interior renovation about three years ago, have been further improved with the addition of a meeting and recreation room in the boys' department.

Completed and officially opened for use by boys of grade school age recently, the new room is the gift of Mr. and Mrs. Henry Luaders, and was donated in memory of their son Edward, who gave his life in world war II.

Measuring 21 1/2 by 14 feet, the room is built into the boys' department lobby in the basement of the YMCA, and offers semi-private areas for table games, reading and watching television.

"The young people of the YMCA needed a room of this type," Mr. Luaders said, "and McMillan said."

April Draft Quota — One Quad-Citizen

One Quad-Citizen is to be drafted in April, according to quotas for the county received this week at the county selective service office in Edwardsville. The lone draftee is to report on April 25, but he will have company — three draftees from the Edwardsville area. No pre-induction physical examination quotas have been set for the county next month.

This month, nine local area youths are to report for induction on March 28, and no pre-draft physical examinations are scheduled.

RING UP TWO MORE! Frank Knight (24), who hit seven of 10 shots from the field against the Pincks, gets off a successful jump shot over the outstretched arms of Panther defenders, including Jack Margenthaler (32).

Pinckneyville's Ed Bigham (22) is at left and Bill Roe (34) at center, while Warriors Jim Simpson (12) and Carl Wortham (10) sandwich out Pinck Don Rheinecker under the boards.

HAPPY, HAPPY WARRIORS hold tightly to the sectional championship trophy which was awarded at the conclusion of Friday's win over Pinckneyville. Biggest grin of all is displayed by Coach Andy Sullivan at left. To the right of

Sullivan are Frank Knight, Max Prusak, Rich Williams, Carl Wortham, Bill McDowell, Bob Price, Larry Farnham (partly hidden), Jim Simpson, Harry Smith and Harry Cook.

Warriors Blast Pinckneyville 75-66 To Win Sectional

FOLLOW THE BOUNCING BALL. Warrior players Carl Wortham (10) and Rich Williams (30) surround Panthers' Don Rheinecker (42) as the Pinckneyville player chases down a free ball.

RICH WILLIAMS (30), who took turns with Granite City's Bob Price in dropping them in from every angle against the Pincks, hits a close-in left-handed hook here as the Panthers' Don Rheinecker makes a futile defensive effort. Granite City's Frank Knight (24) and Pinckneyville's Dave Roach (30) wait for a rebound which did not materialize.

Offensive Teamwork, Alert Defense Oust Panther Team Rated As No. 1 In State

"Thirty and two!" yelled Rich Williams as he entered the dressing room after Friday's smashing victory by Granite City high school over the state's number one team, Pinckneyville. The "two" he was yelling about was the Panthers' second defeat of the year, suffered at the hands of the "white-hot" Granite City Warriors 75-66 in the East St. Louis sectional title game. A victory over West Frankfort at East St. Louis tomorrow would send the Warriors into the state quarterfinals at Champaign Friday.

The highly-touted Pincks were no match for the outside shooting of Granite City's "gold-dust twins," Bob Price and Rich Williams, and the "inside demon," Frank Knight. Price had 20, Williams 19 and Knight 17 points for the game.

The Warriors, who have gained their third straight revenge victory over teams that had beaten them earlier, have advanced past the sectional tournament for the first time since Granite City captured the state championship in 1940.

The 1960 version of the Warriors will face west Frankfort at the new East St. Louis high school gymnasium in the supersectional Tuesday at 8 p.m. Granite City will pit a 26-5 record against the Redbirds' 21-9.

West Frankfort is from the conference (South Seven) which annually has a top team going for the title. Herrin in 1957 and Mount Vernon in 1954, 1959 and 1960 are the most recent state champions from the conference.

The Southwestern Conference, in which Granite City placed second to Collinsville by a one-game margin this year, has not grabbed the top prize since the local five's win in 1940.

After Pinckneyville tied the score 13-13 with less than a minute to go in the first quarter, the Warriors went on to lead the rest of the way. The highly-touted fast break of Pinckneyville failed to account for more than two baskets as the Warriors forced the losers to slow down play.

The key to a fast break offense is to get a defensive rebound and then race down the court and shoot before the other team has a chance to set up a defense. The reason Pinckneyville's fast break failed to materialize was simple: Granite City would not cooperate by missing many shots to give the Pincks dramatic rebounds.

In addition, the fleet Warriors were quick to defend the goal, giving the Panthers little chance to outpace them. "If the other team won't miss, a fast break offense is dead," Pinckneyville Coach Don Stanton moaned after the game.

The Warriors hit on three of six shots in the first quarter, eight of 12 in the second, seven of 16 in the third and nine of 13 in the final stanza for a total of 27 baskets on 47 shots, a torrid 57%. Granite City also hit on 21 of 27 free throws.

Pinckneyville was not an overrated team. The Panthers ran into the same trouble that Dupo faced — they won so many games in the regular season that they were long overdue for an "off-night." Fortunately for Granite City, Stanton's team picked Friday night to have a partial let-down.

In addition, Granite City's growing confidence and defensive strength were large factors in the win. The Panthers hit on only 25 of 66 shots for 38% after averaging over 45% most of

WAR DANCE! Another of the mid-court scenes which have become common since the Warriors took to the tournament trail took place in East St. Louis Friday night immediately after Granite City's 75-66 win over Pinckneyville.

Mercers To Sponsor New Inter-City Club Here

The consolidated Venice-Madison Dugout and Steelworker Club baseball teams, which joined forces at a recent Southwest Illinois Inter-City Baseball League meeting, will be sponsored by Mercer Funeral Home during the 1960 season. It was announced today.

The combined clubs, first announced as the Tri-City businessmen, will be known as the Mercers during the coming season. Co-managers Ollie Miller and Dick Portell said.

The teams had planned to drop out of Inter-City competition completely if financial backing and sponsors could not be found, but agreed to join clubs this month.

Mercer's is one of four new clubs, in name at least, which will begin league competition on Sunday, April 24. Other new entries are State Savings and Loan of East St. Louis, Carpenter and White City, Savings and Loan will compete in the Red division, and the other three clubs in the Blue division.

The Quad-Cities will have two representatives in the league this season, as compared with one last year. Granite City Steel gave up its franchise. The second local representative is Sacred Heart.

Attendance Totals 9124 At Regional; Net Receipts \$8507

Attendance at all sessions of the IHSA regional basketball tournament in Collinsville last week totaled 9124 fans, figures released by Collinsville high school Principal Fred Riddle, who was tournament manager, showed today. The tournament was won by the Granite City high school team.

The final attendance figure was well below that of the previous year, when the regional was conducted in Wood River. The only reported out-of-town fan was the championship final game between Granite City and Collinsville. Average attendance at each of the seven sessions was 1306 fans, and the gymnasium's rated capacity is 2296.

Less-than-capacity crowds were attributed to inclement weather and the postponing of the final three sessions after a backboard was broken and could not be replaced in time for a game scheduled on Wednesday, March 2.

Total receipts from paying customers at the tournament were listed at \$8507.

The amount retained by the Collinsville schools is expected to be about \$1200. IHSA regulations permit the host school to retain 40% of the first \$4000 realized in gate receipts, plus 25% of all other funds taken in. From this total, the tourney expenses are deducted. Costs will include \$436 for replacement backboards, an unusual expense item.

Feeding of Wildlife Being Urged By State

Edward M. Barnett, district game biologist for an eight-county area including Madison county, was in the Quad-Cities Saturday to urge feeding of wildlife. His appeal was made to a group of interested persons on behalf of the Department of Conservation Division of Game Management.

"The wildlife that we now have are the producers of next fall's game crop, so it is vital we save as many as possible to insure ourselves of a good breeding stock," he commented.

"Farmers and sportsmen are urged to scatter grain to wildlife in places which are known to be used by quail or other game species. Every hunter should place food in his favorite hunting areas where he knows quail usually range. This grain should be placed in some sheltered spot, such as a large brush pile or thick hedge row, where it will be protected against recurring snows. To do this most effectively, the placing of food along road ditches is not the answer, though it may help some wildlife and some species of song birds. To do this most effectively, may require some walking, tractor riding or horseback riding to the areas where the game is concentrated. Most people can go to a farm and by looking out over the terrain locate the existing cover. That is the area where the wildlife will be found and food should be placed," Barnett said.

"We all can learn a lesson about wildlife from a heavy snowfall such as we now have. All forms of birds and mammals need food and cover that will take care of their needs in a time of emergency. As we look around the countryside in many places, we see that it has not been provided.

"The Department of Conservation has a habitat-restoration program in which it will assist a farmer in establishing food and cover for wildlife. If you know of such an area where this work has been done, now is the time to check it to see how game species have been provided for."

1st Assembly Wins Fourth Straight Church League Championship, 76-63

First Assembly of God wrapped up its fourth successive Granite City park district church basketball league championship Thursday night at the Coolidge gym with a 76-63 win over Second Baptist, a team which had led the league from opening day until this week.

Played by Earl Whited, who scored 21 points, First Assembly grabbed a 20-11 first-quarter lead and was never headed, although the Baptists staged a terrific last-quarter rally to pull within three points with three minutes left in the game.

The game was the last for both teams during the regular season. First Assembly finished with an 11-1 record, and Second Baptist 6-2.

Dewey Melton led Second Baptist, which won the Teenage League title last season and came close to ending Assembly's rule in church circles after moving up this year, with 20 points. John Draper popped in 17 for First Assembly and Norm Grose had 15 more for the losers.

Granite City Steel Co. easily outdistanced Granite City Trust and Savings Bank, 70-45, for the Industrial league basketball playoff title in a game played yesterday afternoon at the YMCA gym.

The Steel Co. eagles, who won the regular season championship, took an 11-4 lead in a low-scoring first quarter, and then broke the contest open with 27 points in the second period, as Beau McCaskill poured in 10 of his 14 points.

McCaskill was the top scorer for the winners, who got 10 players in the scoring column. Ray Mercer had 12 points, Bernie Crockett 11 and Bill Bachman 10.

Jim Bain of the Trust Bank team led all scorers with 19 points, and teammate Bud Mueller had 13 more. Trust Bank, outscored in every period, had fallen back 21-58 at half time.

TOURNEY SIDELIGHTS

Asked to compare the Collinsville and Granite City basketball sides who had been rated No. 1 and No. 2 in Illinois before meeting Granite City, Warrior Coach Billy Sullivan called the Hawks "a tougher team on the boards. But you really can't compare them—their styles of play are so different," added amiable Andy.

"How'd you win it?" someone asked Coach Sullivan in Granite City's dressing room. "I just sat back and let them play," was the reply, but it was evident Sullivan had the Warriors thoroughly drilled against Panther tactics. Granite City showed the vaunted Finck fast-break a slow crawl on most occasions by dropping back two players when the Warriors fired at their own basket.

"I think the key play of the game was Bobby Hirsch's interception of a pass when they did catch us once on a 4-on-1 fast break," Sullivan pointed out. "After that, they didn't trouble us too much with it."

East St. Louis high school Athletic Director P. L. Dehner said Thursday's attendance was 11,900. The Warriors brought total attendance for the three sectional games to 11,900.

"We had to turn away about 500 people Friday night," Dehner said. "There just wasn't room to sit them." Fans were standing eight and nine deep at both ends of the court, and the balcony at the end of the floor was jammed to overflowing.

Reason for a good portion of the standing-room-only balcony crowd was the collapse of temporary bleachers seats there about an hour before game time. At least three persons sustained minor injuries, and a woman spectator was taken by ambulance to an East St. Louis hospital for treatment. The bleachers seats were sold on a first-come, first-served basis, and were so jammed under the weight of more than 500 fans. Built of wood, the entire bleacher section was dismantled before the game started as a safety precaution.

"Thirty and two! Thirty and two!" sang Granite City fans. The Warriors, who had piled into their dressing room after the game, just ahead of the entire bleacher section, sized court wizard was taking a verbal pot shot at the Panthers. The Warriors, who had the best of any team still left in the state eliminations. The 20-2 mark was still 10-10.

Tourney Highlights
For Fourth Year**

For the fourth consecutive year, Herbert Isaacs, son of Mr. and Mrs. Louis Isaacs, former Granite City residents, will do color commentary on the Illinois state high school basketball tournament finals at Champaign for television station KETC, Channel 9, St. Louis.

During the evening of Saturday, March 19, Isaacs will provide the viewing audience with background on the tournament and teams participating in it. He received his bachelor degree in speech from Northwestern University in June 1958, and, after a six-month tour of active duty with the U. S. Army, joined the announcing staff at WHTV, Terre Haute, Ind.

For the past six months, Isaacs has been a producer-director with WTTV, Indianapolis, Ind. He produces and acts as master-of-ceremonies for a Saturday night variety show at the television station.

A good one, his comment implied, but not good enough.

Granite City became the second Southwestern Conference team in as many years to knock Knockdownville out of a sectional tournament. Belleville did it the hard way (in Pinckneyville) last year, tripping the Panthers 44-14 in a first-round game.

"A pretty good reference for the conference, I'd say," commented a dressing room wife.

Sullivan, who has the gratifying and not generally sought-after job of circulating each of his players individually following a win, had one general comment for the team as a whole: "Beautiful ballgame, boys, beautiful ballgame," he grinned.

"Something which was overlooked by quite a few people," said Andy, "was the job (Carl) Wortham did for us on defense against (Dave) Roach, who is the Panthers' 6-8 pivotman. Observers also felt Wortham played the better floor game, getting excellent position for rebounds under both backboards."

Granite City's "revenge" schedule is now complete. The Warriors, in having beaten Collinsville, Duplo and the Pincos, who were responsible for all of Granite City's losses in regional and sectional play.

First-place trophies won by the Warriors in the Collinsville regional and the East St. Louis sectional are on display in a special window at Graham's Book Store today, together with a number of action shots of the Granite City squad in action at both meets.

Commenting on what happened to his fast-breaking, ball-stealing, up-and-down Friday night, Coach Dan Stanton said, "You don't fast-break when the other team doesn't make its shots, and you don't steal the ball from those guards Granite City has."

Those treated at Christian Hospital, East St. Louis, after Friday's bleacher collapse were Leslie White, Duplo, and Yoris Weir, East Alton.

A Statement from the Wabash Railroad

On March 9 the Wabash Railroad filed a petition before the Illinois Commerce Commission requesting permission to discontinue its overnight passenger trains operating between St. Louis and Chicago. (Trains No. 117 and 118.)

The decision to discontinue these trains was reached only after thorough, exhaustive studies. The decision was not an easy one to make.

Last year these trains operated at a loss of \$325,567. In 1958 the losses amounted to \$372,276. No one except the federal government can operate under such conditions.

What are the principal reasons for these staggering losses?

We are tempted to point the finger at antiquated work rules, federal subsidies to our competitors, and unfair state and federal regulations. More specifically these losses are attributable to increased costs of wages, payroll taxes, terminal expenses, Pullman operating costs and others.

The Wabash Railroad has been and continues to be an advocate of rail passenger travel. We have aggressively sought passenger business by extensive advertisement and promotional campaigns. Yet, this train continues to operate at a huge loss and we are compelled to request discontinuance.

We earnestly hope Wabash patrons will understand why this train must be discontinued.

Of course, our excellent Blue Bird and Banner Blue trains will continue to operate and patrons are invited to enjoy the luxury of these streamlined trains.

Sir:

April 12 the date of the primary approaching and with it the battle for the best of the political dining room tables, especially the battle for the control of the political vaccine, distributed so generously by the so-called levee and sanitary district and controlled by a powerful political machine located in St. Clair county, we begin to wonder how things will turn out April 12 is the electoral going to repudiate the present rulers of the levee district and starts the ball rolling which eventually is going to destroy this powerful machine, or is the electorate going to permit these parasites to continue to feed on the taxpayers' table and so in the process of fattening themselves are corrupting our entire system of representative government in our two counties. We are still sufficiently idealistic to repeat previous statements that the levee board in its present set up as well as in the past has been a disgrace to democratic government and should be abolished but are also sufficiently realistic to recognize the fact that to destroy a machine one has to throw a monkey wrench into its gear. This, in our opinion, representative government can be done only by the electorate, by the people and only by the people at the polls, provided of course, the people are educated and honest enough politically to want. If honest government is the only way to get honest government, make no mistake about it. If we are going to work for candidates in an election by trying to induce some friends to vote for a certain candidate, not because he (the candidate) is an honest and qualified person, but only this certain candidate is in a position to increase our bank account by forty or perhaps fifty bucks, we never will have honest government, because such an election worker is a poor patriot for he knows very well that these forty or fifty bucks is taxpayers'

money indirectly and for these few silver pieces he is deceiving his friends and fellow citizens and is also contributing to and responsible for corrupt government. Call it by any name you wish, in our book it is as described above. Ours is one of the best forms, if not the best form of government in the world but at election time too many of us are selling their democratic birthright for a few lousy silver pieces thereby contributing largely to bad government. We are an ardent student of politics in general for many years and in particular of levee board politics here at home, but for the love of Mike we can't understand how intelligent law-abiding citizens can put up with government as practiced by the levee and sanitary district according to press reports) when all they have to do, is to scratch their heads intelligently (and it does not require too much of either) how many people in foreign lands you think are envying us of this our birthright, not a privilege, a right, and how many in our own country are or know how to exercise this right properly and intelligently. Think it over and show the existence of those that ring your doorbell and want to buy your political soul for thirty silver pieces. Tell them you are politically mature and know the difference between crookedness and honesty and know also to scratch your ballot accordingly. The only safeguard representative government has to offer is an honest, intelligent and vigilant electorate which knows how to use the ballot against unqualified or downright crooked candidates for political office. Try it please.

Dear Neighbor:
Have you heard say that we are the fastest folks in the world? We have a schedule and all that we do must fit into a particular pattern. Bibles and fifty bucks is taxpayers'

problem as we face life with the certainty of God.

Many folks say that we are living in fast times. Life is rapidly changing and time is at a premium. We are trying to get more leisure time. We soon discover that we don't have the time to do the things we really want to do. We are living in rapid age. Have we begun to think how fast we really are? We have a schedule for our workday. We rise at a certain time. We have breakfast at a certain time. . . . go to work at a certain time. . . . catch a bus at a certain time. . . . have lunch at a certain time. . . . take time to pray. . . . and more time. Life is set on a clock. Are we really that fast? Have we taken time to pray? Have we taken time out to discover the reality of God? Have we taken time out to understand and love the other fellow? Have we taken time out to discover the meaning of the spiritual life? We may be living a fast life materially . . . but spiritual life is behind us. How long does it take for an idea to blossom into a fact? During this Lenten Season may we take time out to explore our spiritual life and discover what the real meaning and value of a life that is in God. A Wise Man said many years ago: "Everything there is a season and a time for every purpose under heaven." May God bless you.

The Civic Award Committee is to be congratulated on their recent selection of the United Steelworkers of America and Granite City Steel Company as the recipients of the Eleventh Annual Civic Achievement Award.

There were forty of our members and their wives who attended the Award Dinner and all were deeply impressed with the fine attitude, acceptance, and understanding on the part of those present concerning the problems involved in Labor-Management relations.

The selection of these two worthy groups for your award is a further illustration of why Granite City was selected as All American City. Also, you have shown the Country at large that you have a City that is composed of many parts of our Society, all living and working together in harmony. We wish you well in all your endeavors of this kind in the future.

Your family dentist guards your physical health

Your family lawyer can guard your legal health

If you're fond of your teeth, you and your family probably visit your dentist every six months. But how often do you visit your lawyer? Like a cavity, a legal problem often has a way of going undetected until a sharp pain—perhaps a lawsuit or a claim made against the title to your property—brings it to your attention. You probably don't need a six-month legal checkup, but even the simplest contract, tax problem or lease deserves consideration by your family lawyer. And when you buy a home or other property, your lawyer's counsel will protect your interests at every stage of the transaction. One means of protection he may often suggest is a title insurance policy of Chicago Title and Trust Company—available locally from our representatives in your county. Such policies have been protecting the titles of Illinois home owners for 113 years.

Subject: Judge of the City Court, Election, April 30, 1960.

WEEKLY NEWS LETTER

As reported in last Thursday's issue of the Granite City Press-Record there was a proposal in the City Council to raise the present Clerk of the City Court's salary \$50.00 per month. When it was pointed out that since Mr. Schuman took office as City Judge there had been an additional \$250.00 a month secretary hired, it was explained that this was due to the court's increased business in the last few years. Before Judge Schuman took office, this job was handled by the former Clerk by himself up until the time of his death at the age of approximately 80 years.

In addition to having a large private practice, Mr. Schuman is Judge of the City Court of Granite City, attorney for the Levee Board, Madison County Housing Authority, The Illinois Power Co., the Illinois Terminal Railroad Co., and he has represented Granite City Steel Co. in the past. If this court is so busy that he requires extra personnel in the Clerk's office, how can Mr. Schuman find time to do this job adequately?

If the court is not busy and he does have time to adequately perform these duties why was his former secretary appointed to assist the Clerk in her duties?

I am running for the office of City Court Judge as a team with Marilyn Ward whom you may remember as the wife of the late Harry Ward Jr. She is well qualified and deserving of this important office and promises to be on the job full time.

Both Marilyn and myself promise that our sole interest will be in maintaining a complete, efficient and independent court.

Mr. and Mrs. Bentley Bone, 2635 Lincoln avenue, celebrated their 35th wedding anniversary Sunday with a two-course dinner given by their children at the Kirkpatrick Homes recreation hall.

The tables were decorated in white, jade green and coral. The floral display included large white lilies and dogwood, and there were tall white candles on each table. The gift table had a centerpiece in keeping with the theme.

There were 165 guests present.

Lee Stratton, 1232 Edwards-ville road, returned home Friday after visiting for several days in St. Louis.

Vada Tucker, she returned with him for a weekend visit with her parents, Mr. and Mrs. Glen Lowe.

Mrs. Mary Baker, 2046 Park avenue, has returned home from Barnes Hospital, St. Louis, where she was a patient for the past month and underwent major surgery.

Mr. and Mrs. Bill Sullivan, 2309 Hodges avenue, are announcing the arrival of an infant son Saturday at St. Elizabeth Hospital. He weighed eight pounds, three ounces, and has been named William Brian.

Mrs. Mae Bone is leaving this week for Whiting, Ind., to be with her husband, W. H. Bone, who is employed there.

\$1400 Damage In Early Morning Fire At Home

Fire caused an estimated \$1400 damage to a two-family concrete block residence at 1027 (over) Douglas street, Wednesday early Sunday morning. The origin was not determined, but the blaze appeared to have started in a closet area.

Main damage was in the apartment of Annie Moss, who was gutted by the flames. Firemen listed the loss at \$1000 to the building and \$400 to the contents. There was some smoke and water damage in the adjoining apartment of the one-story dwelling.

The call was received at 12:34, and the department's arrival at the fire was delayed slightly when the address was given as 1019 Bissell. The trucks continued on to the scene after the correct address was obtained. Firemen remained at the fire until after 2 a.m.

Venice firemen were called at 3:45 a.m. Friday to Market and State streets, where part of a load of coke in an open freight car was burning. The car was pulled into railroad yards near the Broadway viaduct and the load was dumped to extinguish the blaze.

Family Data To Be Sought In Survey

Special questions on consumer income, educational attainment, literacy, and family characteristics will be asked in the U. S. Census Bureau's Current Population Survey in March, according to Director Jack W. Traverser Jr. Of the Bureau's regional field office at St. Louis.

The special questions will be in addition to the regular employment inquiries which are asked each month in the Current Population Survey.

The supervisor emphasized that all information about individuals furnished to the Census Bureau is held in absolute confidence under Federal law. It is used to obtain summary figures such as totals, averages and percentages for various groups in the population and not to show information for particular families or individuals. The information cannot be used for investigation, taxation, or regulation.

The Current Population Survey will be conducted locally and in 329 other areas of the country during the week of March 14. Information will be collected locally by Mrs. Dorothy Groh and Mrs. Vera Fantini.
